Subject: Shiloh August 2019 Radiological Air Monitoring
Attachments: Air Sampling 190819.pdf; Air Sampling 190816.pdf; Air Sampling 190815.pdf; Air Sampling 190826.pdf; Air Sampling 190827.pdf

Attached are completed air monitoring sheets for radiological activity at the end of August.

Some beta activity was found on the work zone monitor for the Mound Excavation Team on 8/19/19, however, it was less than the action level for the site. This was during the time period that the water truck was down for repairs. No other radioactivity was detected on air samples.

If you have any questions, please let me know.
